Currently a very large restaurant (160 seats - up to 250 covers a day) with private apartment & garage (+ large "trastero") in a excellent location. Due to the size and location of the building in the center of a very touristic coastal town, would be ideal to continue the restaurant or transform into a small boutique hotel with fine dining restaurant. Possibility to purchase the building & business by sale of the company (6.000.000 Euros), or just take over the restaurant business and pay a monthly rent.
