A unique property to know and fall in love forever with its history and its soul. It offers an environment full of well-being, peace and comfort for the owners.

Beautiful manor house with two towers and large original canvas of the old wall/fort that surrounded the town in the Middle Ages (late thirteenth century).

Located 25 minutes from the Coast (Denia) , a very nice historical house in a good state but will need some modification to make it a nice small hotel or BB. The house offers several salons, dining areas, kitchen, Library, court yards & several terraces. Historical nice cellar / bodega that could be used for small venues or restaurant. Also offering a large rooftop terrace. Private parking.

A large part of the old wall/fort that surrounded the city today forms part of the walls of load and protection of this property.

Currently 4 bedrooms & 3 bathrooms, but due to the available space could possible make 6 to 7 bedrooms + 1 apartment
