A beautiful corner of relaxation and romance, located in a quiet and lovely village belonging to a Natural Park. It is a unique opportunity to acquire a complex of several rural houses in a population of only 4 inhabitants and within a natural park (it is also possible to acquire more houses and focus all the town to a specific and very special theme due to its characteristics)! It is a special place to enjoy the total disconnection from day to day, and it is only 1 hour from Madrid and 50 minutes from the airport. The town has a spring that is born at about 300m and is an area with several castles and monumental towns. At about 6km there are shops, medical center, restaurants, pharmacies, etc ... There are 9 complete rural accommodations, all different and totally independent, are characterized by their unique charm. They are fully equipped and offer a magical, rustic and romantic atmosphere. They have a living area, bedroom, bathroom and kitchen. To complete the experience, all accommodations have Jacuzzi; and those of higher category, private SPA with sauna, Jacuzzi, Chromotherapy and Divan Tantra .. In addition there is a private house for the owners with two living rooms, reception, two kitchens, 7 bathrooms and 6 bedrooms. It also has terraces. For the summer season there is a large outdoor pool with solarium, with exclusive access for guests. In the area you can go hiking, horse riding and cycling. You can also organize off-road excursions and paragliding jumps.
